

OKITIPUPA OIL PALM PLC

INVITATION TO BID: 5 TONNES MILL CONSTRUCTION PROJECT IN IYANSAN AND IKOYA

Project Overview:

Okitipupa Oil Palm PLC is pleased to invite qualified and experienced mill contractors to bid for the construction of a 5-tonne per hour fully Automated Oil Palm Milling facility in its Iyansan and Ikoya Plantation Estates. The successful contractor will be responsible for building a state-of-the-art mill that meets our specifications and requirements.

Scope of Work:

- Construction of mill buildings and infrastructure
- Installation of milling equipment and machinery
- Electrical and plumbing works
- Completion of all necessary civil works

Mill Specifications:

- Capacity: 5 tonnes per hour scalable to 10 tons
- Type: A high tech with vertical sterilization setting with waste fire boiler
- It should also incorporate a wet nut (Ripple Mill) kernel section
- Quality standards: High Tech

Bid Requirements:

- Company profile and experience in mill construction
- Detailed bid proposal, including timeline and budget
- Proof of necessary licenses and certifications
- References from previous clients

Evaluation Criteria:

- Experience and expertise in mill construction
- Quality of bid proposal and presentation
- Compliance with specifications and requirements
- Price and value for money

Bid Submission:

Interested contractors are required to submit their bids to the email address procurement@oopplc.com on or before September 13, 2024.

For more information kindly visit our website - www.oopplc.com or clarification call **+234-916-984-6914**.

Late bids will not be accepted.
